DETAILED ACTION

Response to Amendment

Applicant's amendment to claim 30, the cancellation of claims 1-28, and the addition of claims 50-55 filed in the response on 12/20/06 is acknowledged. Currently, claims 29-55 are pending in this application.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

In light of applicant's amendment and remarks filed on 12/20/06, previous 103 rejection of record is hereby withdrawn. Closest prior art of record, Belfield et al., do not fairly suggest the instant polymer comprising 2-(7-benzothiazoly-9,9-disubstituted fluorine) recurring unit containing a R³ substituent as defined in the claims and in the specification to be monovalent. There is no motivation to change the heterocyclic 5-membered ring in Belfield et al. into a monovalent substituent group. Accordingly, the instant invention as defined by claims 29-55 is allowable over prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
